Dear friends,

We have the pleasure to inform you that the Green Key National Jury after evaluating your application and the supportive documents has decided to award your hotels the Green Key 2013 eco-label.

We remind you that the compliance with all criteria is absolutely essential for the preservation of the award. Furthermore, all hotel managers must have a complete file of all Green Key documentation, available upon request.

You will receive the award certificates and the Green Key eco-label by the end of the first half of April.

We congratulate you for the award and we hope that we will be able to continue our productive cooperation.

Best regards,

Dr Seraphim Hatziskakis
